

# Allergen Information

Our staff need to be informed of your allergy every time you dine with us even if you have eaten the dish before so that every precaution can be taken in our kitchen to prevent cross contamination. This can be done via the order notes when placing the order. This guide is for informational purposes only, we cannot guarantee it may be correct.

Due to the manufacturing process of the spices we obtain from all over the globe, there is a potential for trace elements of all the main allergens like Peanuts and other nuts, Sesame seeds, Cereals containing Gluten, Milk, Celery, Soya, Mustard & Sulphates.

If the product says "Allergies: None known", please check with a member of staff before ordering.

If you have any questions, please ring us. We will try our best to accommodate your needs.

---
